MAINTENANCE

Please read the following before installation and operation.

1 Installation

- Rinse the inlet pipe clean.
- Connect the appropriate water supplies:
Hot water on the left side
Cold water on the right side

2 Technical Parameter

- Water Pressure: 0.1 MPa - 0.86 MPa
- Water Temperature: 41-160° F

3 Surface Maintenance

Remove as much surface dirt and film using clean water and cotton cloth.

Spray cleaners including mild liquid detergents, clear liquid glass cleaner, non-acidic and full dissolved powder cleaners or non-abrasive liquid polishers on a rag are acceptable to clean the faucet surface.

Once clean, rinse the faucet thoroughly with clean water to remove the cleaner then dry with soft cotton cloth.
